Christ Daniel Santoso

Informatics Student at Telkom University Purwokerto | Web &
Backend Developer Enthusiast | Next.js, React.js, Tailwind CSS,
Python, PHP, MongoDB, SQLite, REST API, and Cloud Computing
Kota Tangerang Selatan, Banten, Indonesia

Summary

I am an Informatics student at Telkom University Purwokerto with a strong interest in web development, backend development, and cloud computing. I enjoy learning how systems are built, from designing responsive user interfaces to managing databases and deploying applications. I have experience developing websites through academic projects and self-learning activities. One of the projects I developed is the Coffee Telkom website, which was built using Next.js and MongoDB as the database. The website has been successfully deployed and is accessible online. Through this project, I improved my understanding of modern web development, database management, system integration, and application deployment. In addition to web development, I also participated in AWS Academy Cloud Foundations and Microsoft Azure AI Fundamentals programs to expand my knowledge in cloud computing and artificial intelligence. Through these programs, I learned the fundamentals of cloud services, networking, security, machine learning, and AI implementation in modern technology industries. I am highly motivated to continue developing my technical and soft skills, including problem solving, teamwork, communication, and adaptability. I am interested in pursuing opportunities in software engineering, backend development, cloud computing, and AI-related technologies.

Experience

Dicoding Indonesia
Full Stack Engineer
February 2026 - May 2026 (4 months)
Purwokerto

Bootcamp Participant – DBS Foundation Coding Camp by Dicoding
Dicoding Indonesia & DBS Foundation | 2026

- Participated in the DBS Foundation Coding Camp program organized by Dicoding and DBS Foundation
- Learned web and backend development concepts through hands-on projects and online learning activities
- Improved programming skills in web technologies, API development, database management, and software development fundamentals
- Developed problem-solving, teamwork, and communication skills through collaborative learning and project-based assignments
- Expanded knowledge of technology industry practices and digital skill development for future career opportunities

Microsoft | Azure Cloud

| AI |

Partner

University Student

March 2026 - March 2026 (1 month)

Bandung

Microsoft Azure AI Fundamentals Participant

Microsoft Learn Program | 2026

- Participated in the Microsoft Azure AI Fundamentals program to learn the basics of Artificial Intelligence (AI) and cloud computing
- Learned concepts of machine learning, computer vision, natural language processing, and AI services on Microsoft Azure
- Understood the implementation of AI technology in digital solution development
- Expanded knowledge of AI and cloud technology applications in modern industries

Amazon Web Services (AWS)

University Student

December 2025 - January 2026 (2 months)

Purwokerto

AWS Academy Cloud Foundations Participant

AWS Academy Program | 2026

- Participated in the AWS Academy Cloud Foundations program to learn the fundamentals of cloud computing
- Learned cloud computing concepts including networking, storage, security, and databases on Amazon Web Services (AWS)

- Understood the use of cloud services to support application development and deployment
- Expanded knowledge of cloud technology implementation in the information technology industry

Education

Telkom University

Bachelor's degree, Informatics engineering · (September 2023 - May 2027)
